

中国·铜陵

1st Tongling International Copper Forum

21st ~ 23rd September 2016

Tongling • Anhui • China

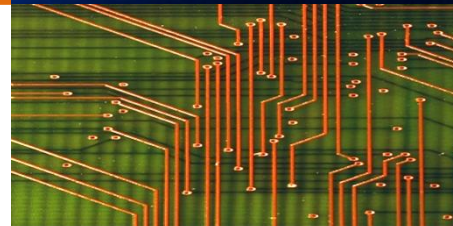

Introduction

- Tongling city is located in the south of Anhui Province, southern bank of the Yangtze River. Tongling has been famous as a beautiful mountain city since its origins in the Han dynasty over 1500 years ago. Owing to its copper and tin deposits, it was an important center in the past for bronze production.
- Currently, Tongling is quite famous in China for its copper industry agglomeration. Tongling Nonferrous Metal Industry Co, Ltd is China's largest copper producer and its refined copper production was over 1.3 million tons in 2015. There are more than 60 copper and copper alloy fabricators in Tongling, and Tongling's copper and copper alloy semis production was over 1.58 million t in 2015. Production of all type semis, including copper wire rod, copper magnet wire, copper foil, copper alloy sheet/strip, and brass mill products can be found in Tongling. Besides, many downstream customers of copper and copper alloy semis, including power cable makers, LED frame makers, PCB (printed circuit board) makers, are also located in Tongling.
- To further encourage the development of China's copper and copper fabricating industry and provide a platform to understand dynamic changes of China's copper industry, Tongling government and China Non-ferrous Metals Fabrication Industrial Association (CNFA) will host Tongling's 1st International Copper Forum between 21st~23rd September 2016.
- There is no delegate fee for this forum. We are currently expecting over 200 delegates.

Hosted by

China Non-ferrous Metals Fabrication Industrial Association (CNFA)

Tongling Municipal People's Government

Attendance

Senior managers from copper producers and fabricators

Representatives of industry association

Academics and experts from universities and research institutes

1st Tongling International Copper Forum

21st ~ 23rd September 2016 • Tongling, Anhui, China

Main topics

- Clean copper smelting production
- R&D of copper and copper alloy semis
- New applications of copper and copper alloy semis
- Substitution status in wire & cable and air-conditioners
- Reshaping China's copper industry

Agenda

Day one:

Wednesday, 21st September

All day Delegate registration

Day two:

Thursday, 22nd September

09:00~12:00 Conference Part I

14:00~17:00 Conference Part II

Day three:

Friday, 23rd September

09:00~12:00 Plant visits

Simultaneous interpretation between English and Chinese will be provided.

Registration & Fee

- There is no registration fee for the delegates.
- Delegates are asked to complete and return Registration Form before 30th August.
- All registrations will be acknowledged

Venue/Accommodation

Tongquetai New Century hotel

The western Jianshe East Road, Tongling City, Anhui Province, China

Access to Tongling

- Tongling government will arrange airport pick-up at Jiuhuashan airport, Nanjing Lukou international airport, Hefei airport and Tongling train station etc.
- Nanjing Lukou international airport is 150km away from Tongling City. There are direct international flights between Nanjing and Hongkong, Nanjing and Tokyo, Nanjing and Frankfurt, Nanjing and Singapore as well as plenty of domestic flights between Nanjing and Beijing, Nanjing and Guangzhou.
- Jiuhuashan airport is 35km away from Tongling City. There are flights from Beijing/Shanghai to Jinhua every day. It should be noted that the flights between Beijing and Jiuhuashan use Beijing Nanyuan airport rather than Beijing capital international airport.
- High speed train is recommended. There are frequent high speed trains from Shanghai to Tongling, which take about 3.5 hours.

Delegates are required to send the detailed flight/train information before 18th September for pick-up.

Climate

The month of September is considered to be autumn in Tongling City with an average day time temperature of 25°C.
